The bake
that goes
“crunch”

HOT AIR IMPINGEMENT

Convection hot air ensures fast, even heating and a crisp, golden finish.

COMBINATION OF MICROWAVE AND AIR

With the combination of the microwave and the hot air impingement, it is capable of baking food in more ways.

HIGH SPEED BAKING

High-efficiency top magnetrons bake food quickly, preserving moisture through hot-air impingement.

FOOD DEFROST

The microwaves defrost food at a high speed without losing moisture.

REMOVABLE FOOD SUPPORT AND RACK

Facilitates interior cleaning and removable component.

TECHNICAL DATA

External Dimensions (mm)	450x647x660
Ext. Dim. Without superior rod (mm)	450x647x612
Chamber size	317x315x188
Capacity(ltr.)	18
Net Weight (kg)	61
Voltage	208-240V
Power (kW)	3.5
Microwave Power (kW)	1.5
Impingement Power (kW)	3
Fan Speed	10-100%
Microwave Range	0-100%
Recipes	100
Stages	10
IPX Grade	IPX3
Maximum Temperature (°C)	280

Combines **microwaves and vertical hot air** for **ultra-fast, even and crispy baking**. Its microcomputer **allows multi-stage recipes** with different power levels and temperatures, **optimising time and results**.
